

## Hemington Primary School Ethos

At Hemington we aim to create the atmosphere of one big family where pupils, families, staff and governors of the school and preschool support and care for each other and our beautiful environment.

We nurture a culture of learning where every child feels safe, happy and motivated to learn; providing every pupil with the very best opportunity to thrive.

We aim to help children develop in to well rounded, confident and considerate individuals, respectful of individual differences and with a will to be the very best they can be.
